Q51Q6: You indicated in a previous question that you know about how much money you want to save for your child's post-high school education. About how much money do you plan to save for your child's post-high school education? If you have more than one child in your household, think about how much money you plan to save for your oldest child under 18. If you do not have a child yet, think about the first child you plan to have. If you aren't sure, please provide your best estimate.

Q51Q6: You indicated in a previous question that you know about how much money you want to save for your child's post-high school education. About how much money do you plan to save for your child's post-high school education? If you have more than one child in your household, think about how much money you plan to save for your oldest child under 18. If you do not have a child yet, think about the first child you plan to have. If you aren't sure, please provide your best estimate.
